Software Engineer

Eagerly looking for a full-time position where I can use my programming skills in Embedded, Web or Automation software development.

Education

New Jersey Institute of Technology - Ying Wu College of Computing, New Jersey

Newark NJ, USA

Bachelor's of Computer Science

- Dec 2024

- Vice President of the NJIT Programming club
- Actively attended the VEX Robotics team, the local NJIT Programming team, and IEEE affiliated conferences and events
- Part of the IEEE membership program and actively participate in ACE/ACM related activities

Professional and Volunteer Experience

Kanopy Labs

Ramsey, NJ

Software Engineer

September 2025 - April 2026

- Engineered the **messaging feature** of a **cross-platform dating application** called **Vybes** using React-Native, ensuring **real-time communication** and seamless user interactions.
- Developed and integrated the **video calling module** leveraging **Agora** and third-party APIs, enabling **high-quality peer-to-peer video** connections within the app.

Comcast

Mt. Laurel, NJ

Python Developer II

March 2025 - August 2025

- Developed full-stack web applications using **Python Flask, SQLAlchemy, and React (TanStack Query)** to deliver scalable and performant solutions.
- Implemented and optimized **RESTful APIs and database models** with SQLAlchemy, improving query efficiency and maintainability.
- Wrote **comprehensive technical documentation** to support onboarding, code maintainability, and cross-team collaboration.
- Designed and executed **unit tests and integration tests**, increasing code coverage and ensuring application reliability.

AWS (Amazon Web Services)

Seattle, WA

Software Engineer Intern

June 2024 - September 2024

- **Developed internal web scaffolding tools** to automate the generation of new web pages and create API systems, streamlining development processes for the AWS Console.
- **Designed and implemented a scripting tool** that reads and compiles Smithy files, enabling seamless integration of web pages on the AWS Console, significantly reducing manual effort.
- **Utilized AWS S3 and Lambda** to enhance the tool's functionality, leveraging S3 for storage and Lambda for executing backend processes, ensuring scalability and efficiency.
- Wrote dozens of pages of documentation.

New Jersey Institute of Technology, ITSRC (Intelligent Transportation Systems Resource Center)

Newark, NJ

Java App Developer

October 2023 - May 2024

- Manufactured and integrated a java app which uses the university on-campus surveillance to inform drivers of potential jaywalkers.
- Ensured compatibility and integration between Java apps and the Verizon cloud database.

Solera .Inc

Dallas, TX

Software Engineer Intern

June 2023 - August 2023

- Developed Microsoft applications using C# and .NET, integrating the Syncfusion PDF library to generate, manipulate, and manage PDF documents efficiently.
- Built and maintained company websites with HTML, CSS, and JavaScript to enhance internal tools and client-facing functionality.
- Designed and implemented an **insurance claims application generator** to support **AI system training**, significantly reducing model training costs.

Technical Skills

Certificates: Mathworks Matlab Course completion certificate, IBM Z Xplore - Concepts, CodePath Intermediate Android Development

Languages: C/C++, Python3, Java, Bash, JavaScript, HTML5, CSS3, C# / .NET, Matlab, SQL, MongoDB, Markdown, TypeScript, JavaScript, Smithy

Frameworks: ReactJS, React-Native, Node.js, NPM, Python Flask, Pandas, Numpy, Matplotlib, Smithy API, Spring Boot, Apache Maven

Developer Tools: Git, Github, BitBucket, VScode, Visual Studio, PyCharm, IntelliJ, Android Studio, Brazil Build, Github Actions/Workflows, Postman

Awards & Recognition

1. Won **1st place in NJIT's 2021 Hackathon (HackNJIT 2021)** for making a **physics rendering engine** on C++ OpenGL, which simulates a 2D dynamic Fluid Simulation
2. Participated in **Stanford's annual hackathon "Treehacks 2022"**, where I assembled a **virus shell simulating engine**
3. Was twice an **NJIT I-Corps award winner** for helping pitch and set up two startup companies
4. Participated and won the ICPC award of "Most Improved Team" where I competed in the Regional ICPC competition

Professional Affiliations

1. Institute of Electrical and Electronics Engineers (**IEEE**)
2. Society of Hispanic Professional Engineers (**SHPE**)
3. Founding father of the **NJIT Phi Delta Theta Zeta Fraternity chapter**
